# Universal Type Server

All-in-one, premium font manager that you can always count on.  
**Professional Font Management**

Designed for design, print, and publishing environments, Universal Type Server empowers creativity while enhancing productivity. It is the leading professional font manager that lets you easily organize, sync, and distribute your fonts across your workgroups while delivering usage compliance and consistency.

## All-in-One Font Management

Managing your fonts with Universal Type Server fuels your team's creativity and productivity. Store all of your fonts in a centralized, server-based font manager to ensure consistent, worry-free font usage across all of your projects.

## Empowers Creativity and Font Discovery

Give your team easy access to the typographic resources they need to be creative and stay productive. Fonts are automatically distributed to your team, and the Universal Type Client makes it easy to browse, find, compare, and use the fonts they need, when they need them.

## Works Seamlessly with Your Professional Tool Set

Universal Type Server is simple to set up and maintain. It works seamlessly within your network and with your professional tool set, including Adobe Creative Cloud, QuarkXpress, Apple, and Microsoft.

## Keeps Your Organization Safe and Legal

Ensure your users have legal access to the fonts they need to get their jobs done, while keeping unlicensed fonts out. Universal Type Servers lets you systematically keep track of your licenses, ultimately protecting your organization from font misuse and costly lawsuits.

## Reduces Costs

Understand your team's font usage with easy-to-understand reports. You'll get quantifiable data that provides insight, guides your font licensing decisions, and can identify areas of unnecessary costs

NEW

## What's New in Universal Type Server

Rewritten to leverage today's latest web application framework, the new and improved Universal Type Server has been re-designed to streamline your workflow and make your font management tasks easier to handle than ever before.

### Modern Platform Upgrades

The underlying framework for Universal Type Server has been overhauled to optimize its performance using today's industry standard platform; including foundational enhancements designed to support future scalability and extensibility.

### No Functionality Left Behind

From day one, Universal Type Server 7 offers full parity to Universal Type Server 6 so there's nothing you'll have to live without. With an Annual Service Agreement that is current, you'll also receive the new updates and enhancements we develop, only improving what you can do with font management.

### New Management Application

Universal Type Server's Management Application has been reimaged to create a more streamlined, cohesive, and intuitive interface to help you focus on the core font, user, and workgroup management tasks critical to organize, sync, and distribute your fonts across your entire organization.

## Highlights:

- » Flash-Free Server lets you administer Universal Type Server with the latest industrial-strength HTML and REST management application
- » Up-to-date plug-ins for the latest Adobe Creative Cloud and rearchitected Adobe Illustrator CC plug-in
- » System Font Policy updates for use with the latest operating systems
- » Customizable memory allocation
- » Complete makeover featuring a redesigned menu and simplified two-panel interface
- » On-screen tool support featuring contextual menus and mouse-over controls
- » Improved user file import feature that lets you handle a larger number of user accounts
- » Safety and security updates make your font management data more secure
